I can fill you in on why the signed documents can't go up on the web.

Thanks for the heads up, Matt. If the letter will be signed digitally, can you please send me the final Word doc instead of the PDF? We can use /s/ and the date on the Word doc to indicate that the official signed copy is on file, then create the PDF from /s/ version. The reason is that we can't make a PDF with e-signature 508 compliant (unless it's been made compliant *before* signature). I realize we've posted past PDFs that have been digitally signed, but technically they are not compliant so I'm just trying to do the right thing.

FYI, in case your timeline slips, I will be available next week but out the following week.

Thanks - Charles

Hi Charles,
I wanted to give you a heads up about a letter we will likely want posted to our Bristol Bay website (<https://www.epa.gov/bristolbay>) as soon as possible once it is signed. Right now, we should have the letter ready Monday (probably late afternoon) or early Tuesday morning. It is EPA's comment letter on the Corps' Final EIS.

Thanks!
